Sneads, Fla, Jan. 15, 1927.

Dear Brother Musgrave:

Glad to get your letter. The brethren are fast turning down the Way under Duckworth as Pope. He is making frantic efforts to stem the tide, but he is fast going under. And I am proud of the stand the brethren are taking against his Popish ways. If the brethren should uphold such conduct as he has manifested in this matter, I should feel very much like entering the schoolroom again and remain there. I certainly would not court the fellowship of a people so debased. But I am persuaded better things of them, and that they will not submit to see me robbed of the paper I have sacrificed so much to keep going, neither will they allow any man to stifle open discussion.

Duckworth has debased the paper to the level of a sectarian organ. The F.F., G.A., C.L., et al among us already have occupied that ground, and the Way under such a "policy" has no excuse for an existance. But such a "policy" well suits N.L.Clark, and if Duckworth wants to cater to this class, I say let him start a paper of his own and not try to steal mine. Put the brethren wise as to what is going on wherever you go. Yes, I will take any work offered to me in the West next summer. Have not arranged dates with any. Want to hear from all first; then arrange so as to save car fare if possible.

Bro. J.P.Watson is now urging my claims. Return enclosures.

With best love to all, I close.

H. Harper
