Sneads,Fla.,July 30,1926.

Dear Brother Musgrave:

Glad to hear of the good meetings. So Taylor did not appear. Well,well!

I have just received a letter from Bro. Hayes of Moody, Texas.He says:"Bro. Alva Johnson has just closed a meeting at Temple. These brethren used one cup,but he taught them (publicly) it was alright to use a plenty of cups,and caused division,not openly yet, but bids fair in future if something is not done.They asked me to help them." This shows how things are going,and Duckworth,by his shut-mouth policy,is encouraging this heresy among us. I have,after waiting two months,heard from him to-day. He evades to say whether he is willing to publish the debate with Clark,but says he wants to consult others. He has had two months for that,and I have decided that he is playing more policy,so I am writing the churches to send in hel to put out the debate for the churches. Will you please write all the churches you can not see and have them send in a donation for this and I will acknowledge all donations in the debate or elsewhere. This should be attended to at once. Duckworth says I am trying to run his business,but it is my business to defend the truth,and he should know it. If I can get enough,I intend to publish matters leading up to this debate and why it did not get into The Way. Trott has come clean and says it should go into The Way.

Let us act as fast as we can,and if D. comes across before we place the matter with a publisher,I will return all donations.

I wrote Bro.Hayes that I would meet any man they could put up-Clark,Cowan,Johnson,or any other man,and to wire me. Write soon.

Yours,
F.B.Harper
